The Run of Cattle at Liberty and Allegheny Heavier and

PRICES FIRM UP AT THE YARDS.

No Prime Butcher Seeves, and Not Many Good Cattle Offered.

SHEEP STEADY AND SWINE LOWER

OFFICE OF THE DISPATCH, PITTSBURG, MONDAY, April 11.

At the East Liberty yards there were on sale about 60 carloads of cattle, against 55 loads last Monday and 60 loads the previous Monday. Of to-day's offerings more than one-half were from Chicago. The balance were from Ohio and Indiana. There were no prime beeves on sale and not many good cattle. Quality of offerings was scarcely up to late average. Buyers were present in less than the usual number, and markets opened slow at last week's prices. There were no sales reported above \$4 50 in car load lots. Last week there was a sale at \$5 per cwt.

There was a light run of fresh cows, and choice were very scarce. A sale was reported at \$43 00, but with this exception the range of markets was \$20 00 to \$40 00 per head. Choice fresh cows are in good de-mand while common are to sell at any price. The run of calves was the largest of the sea-son, the total being 500 head. Prices ranged from \$4 00 to \$4 50 per cwt., but a few fancy vealers were sold above these figure.

Porkers Lower Than Last Week. Hogs-There were 25 head on sale at the opening of markets and more were ex-pected later on in the day. Markets opened pected later on in the day. Markets opened fairly active at 20c per cwt, lower prices than last Monday, but later on in the day there was a loss of activity, and at noon it looked as though sellers might be free to submit to a still further reduction. The general range of prices was \$4.75 to \$4.90 per cwt.

Sheep—Receipts were larger this week than last. There were about 17 carloads on sale at the opening of markets, against 13 louds the previous Monday. Last week's prices were well maintained on choice stock, but weaker on common. Top price of sheep 6c per lb., and lambs 74c per lb. At the Allegheny Yards.

Receipts of cattle at Herr's Island yards were larger this week than last, and top prices were 10 to 15c per cwt lower than a prices were 10 to 15c per cwt lower than a week ago. Best Chicago beeves were sold at \$4.75 to \$4.90, medium weights at \$4.50 to \$4.65, lightweights at \$3.75 to \$4.55 and common to fair thin and rough steers at \$2.50 to \$3.50. There were no good fresh cows offered. The best on sale brought \$30 per head, but good stock would have readily sold at \$40 per head and more. Calves were slow and lower, the range of markets being 3c to 5c per pound.

Receints: From Chicago—I Zeigler, 101 ead; L. Gerson, 103 head; A. Fromm, 64 ead. From Pennsylvania—J. Beblor, 9 ead; J. Wright, 3 head, total 280 head; last head; J. Wright, 3 head, total 280 head; last week, 261 head; previous week, 249 head. Sheep—Receipts were larger than a week ago at the island, but demand was sufficient to take all offered at last week's prices. The range for sheep was \$5 25@6 00; yearlines, \$6 00@7 00; spring lambs, 6@10c per lb according to quality.

Receipts: From Chicago—I. Zeigler. 180 head; L. Gerson, 120 head. From Pennsylvania—J. Wright, 53 head; E. D. Sergeant, 49 head; total, 402 head; last week, 112 head; previous week, 421 head.

Heavy Receipts Bear Prices.

Hogs-Supply large for the season and markets were slow at a decline from last week's prices. Best Chicagos and Ohios sold at a range of \$4 75 to \$5 10.

### A CHICAGO ROW.

Pandemonium Reigned in the Wheat Pit-Break After Break-The Market Closed Five Cents Short-One Man a Half Million Winner,

CHICAGO-Pandemonium reigned in the wheat pit to-day, and in the end Edward Pardridge was over a half million ahead, as is noted in our Business World department. New York and St. Louis operators sold heavily, while there was also a large amount of local longs, who seemed to despair of get-ting a much larger bulge and began to realize. Under this concentrated selling there was an irregular break of 3 cents on the

was an irregular break of 3 cents on the price of May and the feeling gradually became quite bearish. The disappointment in the visible supply statement also proved a weakening factor; early it was thought there would be a decrease of 500,000 bushels, but when the figures were complete it only showed a decrease of 141,000 bushels. This completely unnerved the bulls, and there was a quick collapse.

The price of May wheat started strong at 8tc bid, and with a few sales as high as 84½c, compared with 82½c sellers at the close of the session on Saturday. The quotation settled down to 83½c, then up with some excitement to 85½c, then up with some excitement to 85½c, then broke irregularly to 85½c, and at 2 o'clock was 82½c. After the noon hour the market had another spasm of weakness and May went off to 81½c, reacted to 81¾c, and at 1 o'clock was 81½c. There was additional weakness during the last 15 minutes of the session and May wheat fell to 80½c or thereabouts at the close.

The London failure which had such a marked influence was represented as that of a prominent grain house having interests in California, India, America and Eussia. Then a rumor was circulated that Russia's prohibitory movement would become removed, and there was some mention made of the anti-option bill being favorably reported to Congress from the committee. Bradstreet's report of the world's available supply of 143 600,000 bushels, against \$9,000,000 bushels last year, was also made use of by the bear interest and helped the decline. ast year, was also made use of by the bear atterest and helped the decline.

Interest and helped the decline.

The corn market was not active after the first hour. There was good support even when wheat was demoralized. The opening was strong with everything else on the floor. There was an advance of about ½c, putting the May ½c over the close Saturday. The selling which followed, helped on by elevator men, together with the break in wheat, simply put the price back to the Saturday figure. The movement to this market continues light.

Oats advanced early with wheat and corn Oats advanced early with wheat and corn, but weakened later on with those cereals, and closed about steady at Saturday's figures. The market was fairly active throughout the session. The shorts, led by Counselman, bought fair quantities, while the sell-ter was general. It was a duli day in the provision pit.

Fluctuations were over a narrow range, and in the end prices were slightly lower for pork and no higher for lard and ribs than at the end of Saturday's session. The leading futures ranged as follows, as cor-

# FEATURES OF TRADE.

Good Auguries Drawn from Railroad Earnings and the Crops.

Architect Steen has completed plans and et the contract for the Childs building, on Penn avenue. The same architect has about completed plans for the Gillespie building, adjoining the above. Each will be nine stories in height. Mr. Gillespie will let the contract for his building this week or next. Messrs. Keech and Wade are considering plans for their buildings on the same street, but will not begin work on them for some time. They will be eight stories high. It is not known when Mr. Ewart will break ground for his building on Liberty

street, but it will be in time for its comple-

tion before the snow flies next autumn. Rallways and the Crops. The week in business circles opened without anything specially new in conditions or movement. The only discouraging factor was the weather, which had a distinct flavor of winter. In other respects there was nothing to complain of. No estimate of the situation would be complete which did not take railroads and crops into consideration. Both present favorable features. A large number of railroad companies, previously in default, are now paying interest on some, if not all, of their bonds. This is about as certain a sign of general prosperity in the railway world as any could be. In regard to the wheat crop, it is quite uniformly recorded that the winter was not very severe, and was in many sections mild. Winter killing was ex-ceptional or limited to flat and wet areas. Many correspondents report the crop improving in appearance and indicate a probability of further improvement with favorable weather. The New York bank statement issued on Saturday, was favorable to a revival of business in mercantile circles.

A Builder's Trick. In New York recently the Superintendent In New York recently the Superintendent of Construction found that a number of the tie-bolts passing through a brick wall were too short, so that they held by only a little more than one thread. He notified the builder that these must be replaced by longer bolts, which would allow the nut to engage the threads for its full thickness. An inspection of the premises a few hours afterward showed that a change had apparatuly hear made in the erec of a large purpose. ently been made in the case of a large num-ber of the bolts complained of as defective, for the threaded end of a bolt projected some distance beyond the nut. The re-markable speed with which the change had been accomplished aroused suspicion, however, and an investigation revealed the trick. Short pieces of rods of the same diameter had been threaded and screwed into the open face of the nut, so as to give the appearance of a bolt passing through, while in reality the nut held as before by only a single turn.

The Building Record. Fifteen permits were issued yesterday representing 24 improvements, the esti-mated cost of all being \$25,915. Those of most value are: George Reichold, frame dwelling on Winslow street, Twenty-first ward, \$1,450; Thomas Marshall, frame dwelling on Denniston avenue, Twentieth ward, \$3,500; Angelo Bianco, frame dwellward, \$3,500; Angelo Bianco, frame dwelling on Monroe street, Thirteenth ward, \$1,-200; Mrs. S. Mawhinney, eight brick dwellings on Utica alley, Fourteenth ward, \$8,000; Frank Kling, frame addition to dwelling on Center assence. Thirteenth ward, \$1,000

avenue, Thirteenth ward, \$1,000. Special Features of Trade. It is understood that Boggs & Buhl will next year erect a fine building on their recent Penn avenue purchase. An auction sale of business property on lower Firth avenue will take place on Friday next, April 15, at 11 a. M. A sale of this kind on this thoroughfare will be a novelty. George Wilson will soon begin the erection of a handsome residence in Emsworth.

Movements in Realty. At a recent congregational meeting of the United Presbyterian Church, on Collins avenue, East End, it was unanimously resolved to erect a new house of worship, the present one being entirely too small. Subscriptions to the building fund started with \$80,000 to the building fund started with \$80,000 cash and a valuable lot on Highland avenue, by one family. This was followed by several \$5,000 subscriptions, bringing the total up to about \$125,000 -a sum sufficient with the proceeds of the sale of the existing edifice to insure within a year one of the finest church buildings in the East End.

H. B. Smithson, auctioneer, sold a lot 40 feet front on Penn avenue by 90 feet in depth, with buildings, \$105, 4105, and 4107, for the sum of \$11,500. Lawrence Kerr was the purchaser.

william H. Stimple sold for Mary J. Stimple to William Guckert a lot on East street, Tenth ward, Allegheny, 40x120, for \$2,000

Cash.
Black & Baird sold to James A. Taylor, two lots in Robb & Munson's plan at Chartiers, fronting 50 feet on Chambers street, at the corner of Clay alley, by a depth of 108 feet, for \$1,390 cash.

#### THE MONEY MARKET.

Weakness of Exchange Untavorable to Fur-

ther Shipments of Gold. Local monetary matters began this week under practically the same conditions as characterized the close on Saturday. There was a good supply of loanable funds and a moderate demand for discounts. Checking was fair and depositing up to the recent average. There was no concession in the in-terest rate; which was maintained at 6 per

erage. There was no concession in the interest rate; which was maintained at 8 per cent. One of the encouraging features of the financial situation is the growing demand for first-class railway bonds, but the supply of this class of securities is not sufficient to meet requirements. Bank clearings were \$2,506,613 52 and balances \$56,516 24.

A New York authority remarks: "The reduction of the Bank of England discount rate, in connection with the decided weakness of exchange rates here, render further gold exports at this time unlikely and increase the feeling of confidence in the continuance of an easy market for some time to come. This is shown by the renewed eagerness of lenders to place money on time against Stock Exchange collaterals, the offerings being largely in excess of the inquiry for such accommodation.

At New York, yesterday, money on call was easy at 13 to 2 per cent; last loan, 2; closing offered at 2. Prime mercantile paper, 35,65 per cent. Sterling exchange quiet but weak at 44 86 for 60 day bills and 44 875, or demand.

A DAY ALMOST WHOLLY BARREN OF GOSSIP OR INCIDENT.

Three Stocks Finish the Day With Some thing to Their Credit-Others Wabble a Little-Still Others Hold Their Ground-Business and Fluctuations.

Business at the Stock Exchange yesterday was as good as the weather. Neither was calculated to excite enthusiasm. There was to pressure to buy or sell. At the last call the Tractions developed considerable activity, but other interests were dull.

Only three of the regular stocks finished better than the opening—Mercantile Trust, Citi-zens' Traction and Chartiers Gas. Luster fell off a fraction. The rest of the list was Sales at first call were 30 Luster at 9%, 20 Switch at 16%, 50 Philadelphia Gas at 18%, Second call, \$50 Electric scrip at 85, 25 Wheeling Gas at 19%, 10 Luster at 9%, 125

## LONDON BUYING

STIMULATED THE NEW YORK STOCK MARKETS YESTERDAY.

It Was Because of To-day's Quarterly Settlement-A Slight Flurry in Reading-New England's Decline Continues-Railroad and Government Bonds,

NEW YORK, April 11 .- The stock market to-day displayed in the main a firm temper on a very moderate volume of business, and while there were two or three specific The late decline was continued. The press ure upon the coalers abated for the time being. There was a flurry in Reading, which was one of the early weak points, but no marked change occurred in it or its kindred securities. The foreign purchasers of St. Paul, Union Pacific, Erie, Louisville and Nashville and a few others made the temper of the market during the early morning when all of the improvement was made, but the demand was limited, and, with the closing of the London market, there was a material decrease in the amount of business done, and except in the coal stocks a perceptible falling off in the strength of the dealings. After New England, Manhattan was one of the most conspicuous weak points in the list, but in view of its late material improvement such should not be unexpected. In this stock a further advance of ½ per cent was followed by a loss of 1½ c when all interest in its movements ceased, and it remained practically stagnant with the majority of the list.

The increased deposits of the Richmond and West Point securities served to enhance the value of the preferred stock, and it ross from 54 to 58, but the common was no more than steadily held, exhibiting no feature whatever. The Industrials were comparatively neglected, with the exception of Cordage, which was especially strong and active, scoring a marked improvement for the day. The entire list was higher at the opening, on the London demand, and continued to improve slowly as long as the buying lusted, but later, under the influence of the bearish operations, fell away partially. The late strength in the Coalera, however, gave a firm temper to the trading in the whole list, and the market finally closed quiet, but firm, generally at fractional gains over first prices. There were a number of material advances, and Cordage rose 2, Union Pacific 1½ and Delaware and Hudson. New York Central and Western Union each 1 per cent, while Lackawanna, Lake Shore, Reading and some others rose large fractions.

Railroad bonds were fairly active during most of the session, and the total transac. securities. The foreign purchasers of St. Paul, Union Pacific, Erie, Louisville and

Reading and some others rose large fractions.

Railroad bonds were fairly active during most of the session, and the total transactions reached \$2,005,000, out o' which Atchison incomes furnished \$267,000. The movements in the list, however, were in all cases insignificant, and prices are not materially changed from those of last week. Government bonds have been dull and steady. State bonds have been entirely neglected.

steady. State bonds have been dult and steady. State bonds have been entirely neglected.

The Post says: At the start to-day the course of prices was determined by London buying, in anticipation of to-morrow's fortnight settlement. The origin of these purchases on our market was presumably London's own covering for the short account. The foreign buying centered on St. Paul, Louisville and Northern Pacific preferred, which have in turn been under the hammer in London during the last month; the first on the paring of its April dividend, the others on the discouragement as to their particular prospects, so prevalent of late both in London and here. The foreign purchases stimulated some professional buying here, and the result was a very general demonstration of strength. The dividend paying stocks were in the lead as usual.

RECEIPTS OF EGGS BY OHIO RIVER LIGHTER THAN EXPECTED.

Dressed Poultry in Good Demand-Tone of the Cereal Markets Is Improved All Along the Line-Sugars Strong and Coffees Weak.

OFFICE OF THE DISPATCH, PITTSBURG, MONDAY, April 11. COUNTRY PRODUCE—Jobbing Prices— Receipts of eggs by the Ohio steamers were much lighter to-day than was generally anticipated. About 2,000 cases were received and 3,000 cases were expected. The light receipts and cold weather have stiffened markets, and Saturday's prices are well maintained. Creamery and country butter are in liberal supply, and prices are barely steady. Monday is uniformly an off day in general produce lines, but this Monday proved better than the late average. Commission merchants report a fairly active trade. Live poultry has been in better sup-ply the past week than for some time past. Dressed poultry is scarce and firm at a shade higher prices.

A CME BLACKING is cheaper at 20 cents a bottle than any other Dressing at 5 cents.

A LITTLE GOES A LONG WAYS because shoes once blackened with it can be kept clean by washing them with water.

People in moderate circumstances find it

profitable to buy it at 20c. a bottle, because
what they spend for Blacking they save in
shoe leather. It is the cheapest blacking considering

# its quality, and yet we want to sell it cheaper if it can be done. We will pay \$10,000 Reward

for a recipe that will enable us to make WOLFF'S ACME BLACKING at such a price that a retailer can profitably sell it at 10c. a bottle. This offer is open until Jan. 1st, 1893. WOLFF & RANDOLPH, Philadelphia.

Old furniture painted with

## PIK-RON

(this is the name of the paint), looks like stained and varnished new furniture. One coat will do it. A child can apply it. You can change a pine to a walnut, or a cherry to mahogany; there is no limit to your fancies. All retailers sell it.

The Great Success of the genuine imported Johann Hoff's Malt Extract as a tonic nutritive has caused a crowd of fraudulent imitators to come into the market. Beware of them! The genuine has the signature of "Johann Hoff" on the neck of every bot-
